## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4, 11-14 and 16-20 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Zawada US Patent No. 6,592,611

Zawada discloses a medical treatment apparatus and methods of use comprising at least two hand-pieces to provide treatment energy to a tissue site; at least one laser source coupled to the hand-pieces; a power supply; and a control system adapted to control the functions of the treatment apparatus. Zawada does not teach the use of a flashlamp to provide the treatment energy as claimed. However, the use of flashlamp to provide treatment energy is known in the art. Hence, at the time of the applicant's invention, it would have been obvious to one skilled in the art to modify Zawada and use a flashlamp as an equivalent alternative light source to provide the treatment energy.

### ***Allowable Subject Matter***

Claims 1-3 and 10 are allowed.

Claims 5-9 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
